PAMPHLET LIST

No.6

U.S.D.A. Library, Albany Branch, Western Utilization Research Branch, Albany, Calif.

It has been a long time since we introduced you to some of our "wallflower" pamphlets. The response to earlier lists has always been encouraging, so we feel that we should continue them from time to time. You will notice that most of the items on this list are bibliographies, and like the proverbial "stitch in time", a bibliography can save hours of time ... if it is the one you need. We hope some of these will be helpful to you.
